MAN

HIGH TECH **ski & snowboard** TUNING TOOLS

research design

made
with
**HIGH
TECH**

Born in 1975, the SKI MAN trade-mark has become internationally known thanks to his high-tech and high-quality products for ski and snowboard hand tuning.

Our relationship with customers is not only based on business but on steady teamwork, which has brought us, in the course of years, to improve and widen our range of items. Testing by World Cup ski-men is an excellent chance to evaluate the effectiveness of our work. Items in this catalogue are for professionals or amateurs who want to prepare materials by themselves in order to improve their performances steadily. Quality has been and will always be the main aim of our factory.
